

Branching Prayer

Begin with the main idea 'God' and then add a branch describing God, e.g. caring, compassionate and add descriptive words of God or attributes of God, to that branch, e.g. help of the poor, justice seeker. Think about the words you have added to the branch for a few moments and then in your mind compose a prayer to God using those images of God. At another time you can use another branch to write another prayer. You can draw as many prayers as you want. It's a bit like a mind map of your thoughts about God.

God Is

She who cares,

.....

.....

.....

.....

God Is

He who guides us,

.....

.....

.....
